APX and Belpex Approved as Registered Reporting Mechanisms

AMSTERDAM/BRUSSELS/LONDON, 11 September 2015

Power spot and clearing exchange APX today announces its approval as a Registered Reporting Mechanism (RRM) by the Agency for the Cooperation of Energy Regulators (ACER). The APX trading entities – APX Power B.V. and APX Commodities Ltd. – and Belpex all have now been approved as RRM by ACER.

Regulation on Energy Market Integrity and Transparency (REMIT) requires market participants to report wholesale energy market contracts to ACER, aiming to ensure greater transparency in wholesale energy markets. From 7 October onwards APX and Belpex will offer data reporting services for all orders and transactions concluded on the APX and Belpex markets. APX will also offer a reporting solution for OTC transactions which are cleared through APX Clearing B.V. and APX Commodities Ltd.

- ENDS

Note to editors - About APX

APX Group is one of Europe's leading providers of power exchange and clearing services for the wholesale market, operating transparent platforms in the Netherlands, the United Kingdom and Belgium. APX Group provides exchange trading, central clearing & settlement and benchmark data and industry indices distribution services to over 180 members from more than 15 countries. Over 92 TWh was traded on APX markets in 2014 and €9 billion in energy trades cleared by APX.

APX Group, including Belpex SA, is wholly owned by EPEX SPOT SE.
